I'm afraid we are still working on how to present the model results most effectively (as well as more ground truthing of results themselves), particularly now that we have a bit more time. I'll have to get back to you on when we can share graphs - probably as we get closer to putting them together for NRRB.

Alice:

Could we get the graphs that were shown in June for No Action, Targeted Capping, Bank to Bank Dredging/Back fill and Bank to Bank Capping /Back fill? If you have updated any of those results - could you provide them as well?

Thanks

R/
Rob
